Art Unit: 1732

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-10, 14-23 and 27-34, drawn to a method and apparatus for making/heating a composite material, classified in class 264, subclass 450.

II. Claims 11-13 and 24-26, drawn to a composite material, classified in class 428, subclass 292.1.

The inventions are distinct, each from the other because:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by other processes and apparatus such as ones in which a current is not caused to flow through the composite, which would be heated thermally instead of electrically.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Horton on October 6, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37 CFR

1.143).

Given the issuance of a restriction requirement, applicant's comments directed to the art 2.

rejection will be held in abeyance pending the election.
